

RANGEMASTER®

*sinks
& taps*

WELCOME TO *the family*

Our sink and tap collection is renowned for its durable build and high quality. With over 90 years’ experience manufacturing stainless steel sinks we are the No.1 sink manufacturer in the UK, with the majority of our sinks being manufactured at our factory in Long Eaton, Nottingham.

The kitchen sink area is the most used space in the kitchen so it’s vital that your chosen sink and tap is built to last in the busiest of environments.

Using the best sourced raw materials available and advanced manufacturing techniques, we design and engineer

our products so that they combine functionality, durability and stylish design.

Whether you’re retro-fitting or re-styling your kitchen our wide range of sinks and taps cater for all budgets and styles; from the ultra contemporary to the farmhouse-style traditional kitchen schemes.

We are confident our sinks and taps are built to last so that’s why we offer a 25 year warranty on our stainless steel & granite sinks collections, 10 years warranty with our fire-clay ceramic sinks and 5 years warranty with our tap collection.

OUR COMMITMENT TO THE ENVIRONMENT

It is testament to our reliability and commitment to the environment that Rangemaster is the proud recipient of double ISO accreditation.

BS EN ISO 9001 certifies that Rangemaster products are designed and manufactured to an internationally recognised quality management system, while BS EN 14001 acknowledges our commitment to continually improving environmental performance by adopting an approved environmental management system.

NEW PRODUCTS

FORGE

Create a true focal point in your kitchen with the new Forge Hammered Belfast sink from Rangemaster. Expertly crafted and beautifully finished, its striking hammered apron front design captures the character of a traditional copper sink while offering modern durability built to stand the test of time.

Visit [pg. 22](#)

FLUTED HARMONY

The new Harmony Fluted Belfast sink blends timeless elegance with a subtle sense of individuality, striking the perfect note in a traditionally styled kitchen. With a generously proportioned deep bowl, Harmony is designed to meet the everyday demands of a busy family kitchen with ease.

Visit [pg. 64](#)

CONSONA

Create a harmonious space with the new Consona workstation that works seamlessly with its range of dedicated accessories to create a compact, highly efficient workstation designed for the modern home chef.

Rinse, wash, chop and prepare - all in one streamlined space, keeping clutter and mess to a minimum.

Visit [pg. 25](#)

STRATUS

Featuring a defined linear drainer and crisp geometric corners, the Stratus Igneous sink collection embodies refined modern design. Available in four versatile bowl configurations and five contemporary colourways, the collection offers exceptional flexibility with the choice of two compact options, perfectly suited to smaller spaces.

Visit [pg. 42](#)

ROSEMONT

Understated elegance defines Rosemont, bringing effortless charm to elevate your kitchen design. It pairs beautifully with traditional fire-clay sinks and is available in three distinctive design variations to suit your style, choose from single lever, dual lever or pull-out dependent on your need.

Visit pg. 74

APEX

Sophisticated in design, the Apex tap collection exudes luxury and premium style. Its tall, sweeping silhouette makes a bold design statement, enhanced by a contrasting black hose for a contemporary edge. Featuring a cold start cartridge for improved energy efficiency, the Apex is complete with a practical magnetic clip that ensures the spout retracts neatly into place.

CHOOSING YOUR SINK

MATERIAL TYPE

STAINLESS STEEL

Remaining the most popular choice when choosing a kitchen sink, stainless steel is a robust, hygienic and hard-working solution. Rangemaster offer one of the largest and comprehensive ranges of stainless steel sinks providing a solution for every installation.

- 18/10 Stainless Steel
- Pre-fitted Seals
- Waste Kit Included
- 25 Year Warranty

GRANITE

For a modern and contemporary look, choose a granite sink, which are available in multiple different design options in an array of different colours.

- Durable Material
- Hygienic Surface
- UV Stability
- Waste Kit Included
- 25 Year Warranty

FIRE-CLAY CERAMIC

A fire-clay ceramic sink will create the ultimate statement piece; with a wide variety of installation options available there is a design style suitable for any style of kitchen.

- Easy Clean Surface
- Superior Strength
- Waste Kit Included
- 10 Year Warranty

INSTALLATION TYPE

INSET

An inset kitchen sink is compatible with any choice of worktop material, making it the most popular design choice. Rangemaster's inset sinks are pre-fitted with seals to create the ultimate barrier against water ingress and prevent potential future damage if water were to seep through, making these sinks a great accompaniment to laminate worktops.

The added benefit of its integrated drainer offers additional food preparation space and allows washed pots to be dried effortlessly.

Available in **Stainless Steel, Granite or Fire-Clay Ceramic**

UNDERMOUNT

Choose an undermount sink for a sleek, modern and minimalist look. These sinks are installed on the underside of the work surface which extends the worktop area and offers a seamless finished look; increasing the worktop space available makes these sinks an ideal solution for compact kitchen spaces.

Often paired with granite, solid surface and wooden worktops, an undermount sink is a modern solution for a minimalist kitchen scheme.

Available in **Stainless Steel, Granite or Fire-Clay Ceramic**

SIT-ON BELFAST

Create the ultimate statement piece in your kitchen with the addition of a sit-on Belfast sink, traditionally styled; these sinks complement shaker style kitchen cabinetry beautifully.

Featuring generous deep bowls, a sit-on Belfast sink is ideal for washing large pots and pans which can't fit into a dishwasher easily.

Available in **Fire-Clay Ceramic & Stainless Steel**

STAINLESS STEEL SINKS

Stainless steel remains the most popular material choice when choosing a kitchen sink due to its hard wearing and long-lasting properties. Rangemaster stainless steel sinks are all manufactured using high-grade 18/10 stainless steel, whereby the additional nickel property included in this material grade offers a long lasting high-shine finish.

The majority of our stainless-steel sinks are manufactured in the heart of the midlands in the UK, where each Rangemaster sink is hand finished by our experienced craftsmen and supplied with a 25-year warranty offering you peace of mind when purchasing.

There are an array of different designs available suiting inset, undermount and sit-on Belfast installations.

KEY FEATURES

FITTED SEALS

Some stainless steel inset sinks are pre-fitted with seals reducing installation time whilst ensuring a perfect, water-tight fit is retained with the work surface.

SUBTLE GROUND EDGE TRIM

Some stainless steel inset sinks are finished with a ground edge trim to beautifully frame the sink.

MICRO-SHEEN™ FINISH

All Rangemaster stainless steel sinks feature a Micro-Sheen™ finished surface; which offers a soft brushed appearance with a polished finish. This advanced application provides a lustrous finished look whilst also enhancing the sinks resistance against heat, scratches and stains.

25 YEAR WARRANTY

Rangemaster stainless steel sinks include a 25-year warranty

GAUGE MATERIAL

Sinks vary from 0.6 to 1.2mm gauge, the higher the gauge of material the thicker the material is.

MINIMUM CABINET SIZE

Sink options available to suit 450mm, 500mm, 600mm, 800mm and 1000mm cabinets.

REVERSIBLE INSTALLATION

The sink can be fitted with a left-hand or right-hand drainer option.

COSMO

A seamless finished design with a unique brushed patterned drainer, the Cosmo sink stands out from the crowd.

SINGLE BOWL SINKS

Choose an undermount sink for a sleek, modern and minimalist look in your kitchen.

These sinks are installed on the underside of the work surface which extends the worktop area and offers a seamless finished look. This design maximizes the available countertop area, making undermount sinks an excellent choice for compact kitchen environments.

Inset

Undermount

Our Consona, Quad, Cubix, Kube, and Spectra products are designed to offer dual fixing options. As a result, they can be installed as either inset or undermount, with both clip sets included.

We offer a variety of corner radius options. The corner radius refers to the curvature of the sink's inner corners. Traditional sinks typically feature a larger radius, while a smaller radius lends a more contemporary style.

New CONSONA

Create a harmonious space with the new Consona workstation that works seamlessly with its range of dedicated accessories to create a compact, highly efficient workstation designed for the modern home chef.

530 x 450mm Single Bowl Inset / Undermount Sink - Supplied with Accessories

THE FAMILY GROWS WITH... *Cloud*

A new neutral colour finish now available across new featured collections and our existing collections including, Prato, Oridian, Topaz & Loa.

GRANITE SINKS

Choose a granite sink for a contemporary, sleek finished look. There are an array of different designs to choose from in a variety of different colours.

Constructed from a patented formula of 80% quartz - the toughest element of granite - and high-grade acrylic, the Igneous sink collection is literally rock solid. Its natural anti-bacterial surface repels microbes and stains which means cleaning is a dream.

RANGEMASTER 
IGNEOUS

KEY FEATURES

DURABLE MATERIAL

Resistant against knocks, scratches, stains and heat.

HYGIENIC SURFACE

Non-porous surface which repels microbes and stains making the sink much easier to clean.

UV STABILITY

Fade free colour finish for years to come.

25 YEAR WARRANTY

Rangemaster granite sinks include a 25-year warranty

MINIMUM CABINET SIZE

Sink options available to suit 450mm, 500mm, 600mm, 800mm and 1000mm cabinets.

REVERSIBLE INSTALLATION

The sink can be fitted with a left-hand or right-hand drainer option.

PRATO

Divided into three different working levels maximising the space available within the bowl to provide a functional compact workstation which will help the aid of food preparation for the everyday culinary chef. Sliding accessories (cutting board, colander and flex drainer) can be positioned on three levels dependent on your food preparation needs.

FIRE-CLAY CERAMIC SINKS

The kitchen sink is one of the most used items of your kitchen, so why not add a statement piece to enhance the overall look of your space?

With the addition of a fire-clay ceramic sink, you are guaranteed a sink which will retain its high-gloss colour and shine for its lifetime.

Our ceramic sinks are manufactured using clay sourced from Cornwall, UK. Moulded and fired at high temperatures, our ceramic sinks are robust and hygienic thanks to the high-gloss glaze finish with each sink.

There are a choice of inset, undermount and sit-on Belfast options available in a variety of different styles. Thanks to its natural high-gloss finish, a fire-clay ceramic sink beautifully complements any style of worktop surface.

The Hartland inset Belfast range provides the traditional and sought-after look of a Belfast sink, without the need to invest in a solid worktop as its inset design is compatible with any type of work surface including laminate, now available with a new fluted apron front design.

KEY FEATURES

EASY CLEAN SURFACE

Thanks to its smooth glazed surface, a Rangemaster fire-clay ceramic sink is easy to clean as microbes and stains just simply wipe away.

SUPERIOR STRENGTH

Thanks to the high gloss glazed finish, Rangemaster ceramic sinks are highly resistant against heat, stains and scratches.

EXPANDED COLOUR RANGE

Choose from high gloss White or Matt Black

10 YEAR WARRANTY

Rangemaster fire-clay ceramic sinks include a 10-year warranty.

MINIMUM CABINET SIZE

Sink options available to suit 450mm, 500mm, 600mm, 800mm and 1000mm cabinets.

REVERSIBLE INSTALLATION

The sink can be fitted with a left-hand or right-hand drainer option.

ARLINGTON

Modelled from our flagship stainless steel range, Arlington, now available in a new ceramic collection which encompasses its iconic design styling and is offered to the market as a reversible solution providing flexibility.

FINISHING TOUCHES

Complement your kitchen sink with a Rangemaster tap, waste disposal unit and compatible accessory. Our taps and accessories have been designed to help assist with daily tasks so that cooking and cleaning are made easier.

All of our taps are manufactured from high-grade brass and finished with state of the art long-lasting electrolytic coatings. A ceramic disc cartridge is also included with every tap which provides smooth handle movement and ensures the user has full control over the flow and temperature of the water.

KEY FEATURES

5 YEAR WARRANTY

Rangemaster taps include a 5-year warranty.

ANTI-SPLASH SPOUT

The spout features a honeycomb aerator design which mixes air with water to emit a soft 'champagne like' water flow with no splash.

PULL-OUT HOSE

For ultimate food preparation and cleaning results, choose a tap with a pull out hose. The majority of our designs feature a retractable hose which sits discreetly within the tap not altering its appearance from a standard tap.

WATER PRESSURE

The flow of water is determined from the water pressure available in your home, identifying the type of plumbing system already installed will help you choose a tap to suit your water pressure.

ALL PRESSURE

The majority of our taps have been designed to work with all plumbing systems, including low pressure hot water tanks. Look for the 'A' symbol opposite across our range, which highlights compatibility with all water systems from 0.2 bar onwards.

MEDIUM PRESSURE

Some of our taps require plumbing systems with a higher bar pressure of 0.5 bar onwards, look for the 'M' symbol opposite against these types of taps.

HIGH PRESSURE

Taps with a 'H' symbol will require a plumbing system with 1.0 bar or higher when installing.

WASTE DISPOSAL UNITS

Clean, hygienic and safe to use, all Rangemaster waste disposal units are easy to install and compatible with all of our sinks. With a wide choice of different options available all of which include the following features:

- **Bio Shield Antimicrobial Protection** - a hygienic agent which inhibits the growth of a wide range of micro organisms and provides protection against odours.
- **Turntable Operation** - no knives or blades are used thanks to the turntable included which uses generated centrifugal force to hurl waste against the grinding ring which shreds the waste into fine pieces.
- **Torque Master** - a balanced grinding system which provides superior torque speed with less vibration and noise providing a longer life system.
- **Sound Shell** - protected with an outer shell which reduces noise levels when the waste disposal unit is in operation.
- **Continuous Feed Function** - mains operated controlled by a switch.

Economy 500

Suitable for small households.

WDU500/

RAPID-FIT PLUMB KIT

- **Quick Fix Installation** - pre-assembled, reducing installation time by 75% for installers, and eliminates installation errors.
- **Water-Tight Fittings** - no risk for water leaks when installed.
- **Space Saving** - compact design allows homeowners to utilise more space underneath the sink when installed.
- **Adjustable** - the double bowl option can be adapted so that it is compatible with 1.5 bowl sinks as well as double bowl sinks suiting different waste configurations.
